OF SOLID WASTE STREAMS
(in developed countries)

The construction sector has a huge impact

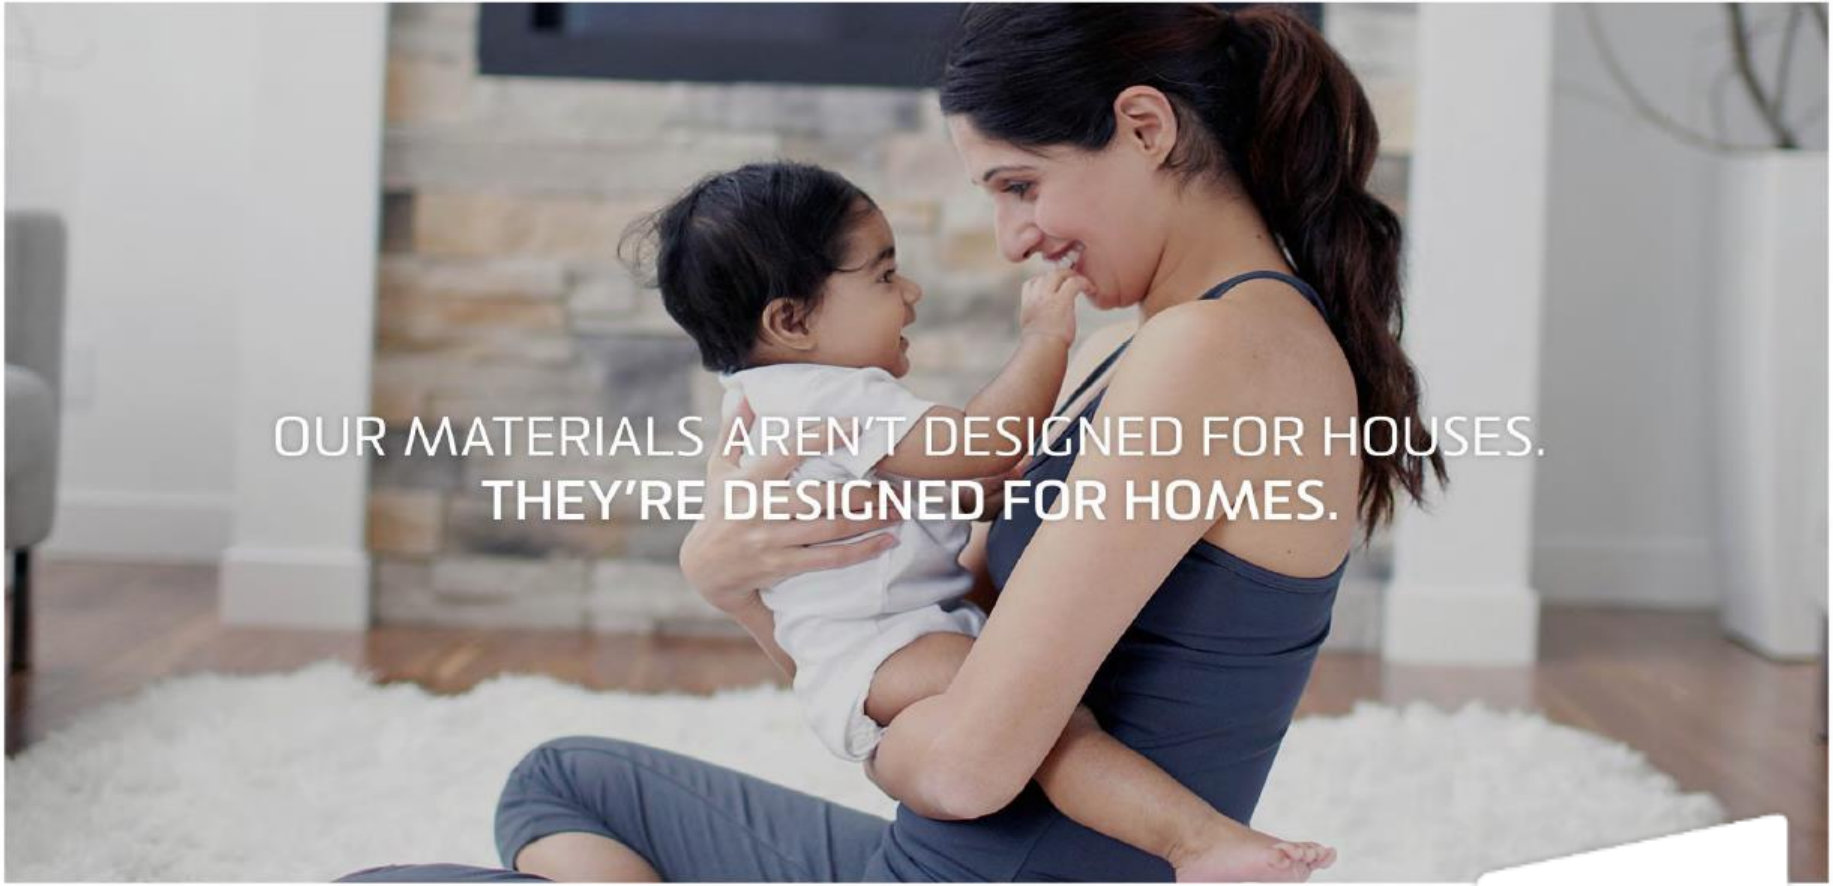

Life Cycle Approach

EPD VERIFIED

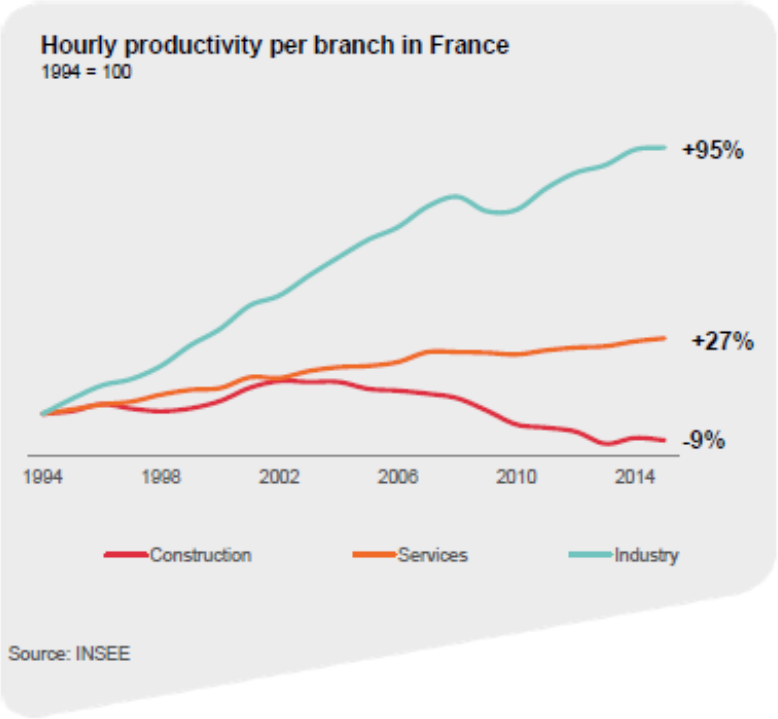

SAINT-GOBAIN

We understand what a home means for you: a place you can rely on to protect your family's wellbeing. So you need to know that the materials used to construct your home will be safe and efficient, as well as beautiful and durable. At Saint-Gobain, we have 350 years' experience of helping to turn houses into homes. Our building solutions are designed with one thing in mind: your family's comfort, and your peace of mind. www.saint-gobain.com
